Medical PC keyboard, white

Features and Benefits

a high quality, reliable medical waterproof (fully sealed, IP68) PC keyboard with numeric keypad. Designed for the use in medical, (microbiological) laboratories as well as industrial environments. Main benefits are:

- Easy key actuation for perfect typing
- No hollow spaces for dirt and bacteria to accumulate
- Thorough surface disinfection by spray/wipe sanitizing, easy to clean, fast dry
- Effective protection:
 - No re-contamination of open surfaces by polluted cleaning fluids flowing off the keyboard
 - No risk of germ transmission by excess fluids leaking or dripping off the product
 - No hollow spaces for polluted cleaning fluids to form a nutrient solution and grow bacteria.
- **Full sealing: IP68 water-/dirt proof**
- **Good to the touch, ergonomic design**
- **Hospitals, Healthcare Providers, Lab, (Food) Industry**
- **Excellent tactile key feel**
- **CleanFunction allows to switch off the keys while cleaning (Fn+clean on/off)**

Specifications

Compatibility	All operating systems supporting standard USB keyboards
Chemical resistance	Most common cleaning agents and surface disinfectants
Lay-out	Qwerty (US)
Power/Interface	USB1.1 (PS/2 on request)
Temperature range	Storage: -20° to + 70° C. Operation: 0° to + 50° C
Supply Voltage	5V +/- 10% through USB Port, resp. 5V +/- 5% through PS/2 Port
Current consumption	Approx. 35mA (USB Low Power Device)
Dimensions	About 449mm x 142mm x 26mm
Weight	Approx. 800 Grams (w/o packaging)
Color	white (Ral9002)
Led status indicators	Caps Lock, Num Lock, Scroll Lock, CleanFunction
Key Switch Technology	Scissors balancing key guidance with contained contact system
Key travel	Approx. 2,5 +/- 0,5 mm, 60g (similar to notebook keyboards)
Agency Approvals	CE, FCC Rohs, EN-60601-1-2

*No Medical Device according to 93/42/EWG
