### Compact industrial keyboard with Touchpad, black, USB wired

#### Features and Benefits

A high quality, highly reliable keyboard with notebook style key field and integrated touchpad for use in industry, apparatus, tool and plant construction, server and kiosk as well as healthcare applications. The big touchpad allows smooth and precise control of the cursor movement also for untrained operators. The touchpad is maintenance-free and does not contain any wearing parts.

While using scissor balancing technology with open slide bearings, the keycaps are leveled against all 4 corners and such ensure excellent key guidance and feel, also with excentric actuation. With its closed contact system, it is resistant to moisture and dust. The flat, sideways slant keys allow for easy cleaning of the key field. For extended protection, you may also use our keyboard versions with silicon membrane (optional).

#### Specifications

<b>Protection Level</b>	IP20 / Optional: fully sealed IP68
<b>Power</b>	Input +5V +/- 10% through USB port
<b>Key Layout</b>	82 keys, US lay out
<b>Key Switch Technology</b>	Scissors Balancing key guidance with contained contact system
<b>Button Life</b>	>5 million strokes
<b>Interface</b>	USB 2.0 wired
<b>Key Force /Travel</b>	Approx. 2,5 +/-0,5 mm
<b>Dimensions</b>	282 x 206 x 25,5 mm
<b>Weight</b>	700 g (w/o packaging)
<b>Color</b>	Black
<b>Material</b>	plastic housing
<b>Operating temp. range</b>	0°C to +50°C
<b>Storage temp. range</b>	-20°C to +60°C
<b>Compatibility</b>	All operating systems supporting USB keyboards
<b>Agency Approvals</b>	CE, FCC, RoHS
