ReallyCool O'Cool keyboard, black,

Features and Benefits

An Industrial Grade sealed, Oil Resistant IP68 desktop keyboard with low-dome keys. Fully submersible, washable, high quality keyboard with superior tactile feedback and quiet keys. Engineered to handle the most challenging environments. It features no mechanical moving parts to break or fail. Its unibody design is impervious to dust and fluids - including oil and grease. The perfect solution for dusty, dirty, greasy, oily environments.

Main benefits are:

- Completely sealed, washable and waterproof (IP68).
- Resistant to oil, dust and fluids.
- Locking Key for easy cleaning.
- No moving parts to minimize failures.
- Tactile feedback similar to standard keyboard.

Cleaning instructions:

- Clean the surface of the product by wiping, brushing or spraying. Use only rags, sponges or soft bristle brushes. DO NOT place the USB connector into the fluid!
- Either wipe with dry cloth or allow to air dry.
- Keyboard can also be rinsed. After cleaning, drain, and turn upside down on dry towel and allow to air dry.

Specifications

Compatibility	Windows, Mac
Power	5 Volt, 26 mA (max) w/o backlight
Key Layout	109 keys; Includes numeric keypad and 12 function keys, US lay-out
Material:	100% Silicone rubber, PVC cable
Dimensions:	381 x 150 x 15,3 mm.
Weight:	780 g
Cable length:	1,83 m
